	5.9	Lifting injury	Medium	2	2	4	1.11	Low

'N' & 'M': 1 = 1st Aid only; 2 Paramedic or Ambulance; 3 = Serious Injury or Death.

Royal Torbay yacht club 2011 Season: General.

Port Marine Safety Risk Assessment –

1. The Royal Torbay Yacht Club (RTYC) 2011 Sailing Series will be held during 01st April 2011 to 01st January 2012 and will involve a medium number of yachts of varying size and manoeuvrability, with a minimum length of about 3 metres.
2. It will be sailed in the confined waters of Torbay.
3. This type of racing does not attract significant attention from non-participants, except for a few marine photographers.
4. The drafts of some of the competitor yachts taking part will be 2.5 metres and the largest competitor yachts may be more than 14 metres long.
5. There is a risk of collision and grounding which is always present in sailing.
6. There is a risk of injury to the crews of the yachts, most notably in cases of gear breakage, collision or Man-Overboard (MOB).
7. The race area and complexity of courses means safety cover is impracticable. Competitors may be up to 3 miles away from race management resources, therefore in common with other events of this type, the majority of safety cover is provided by competitors on a mutual help basis. A Rescue Boat will always accompany the RS Feva and Cadet Class.
8. This paper assesses the likely risks that will be encountered in the race area and defines the measures needed to reduce the risks to an acceptable level.
9. Race Areas
Racing will mainly take place in the North West of Torbay.
10. Race Timing
The races will start as notified in the official Notice of Race.

Appendix: Standard Risk Control Measures & Assets available for the Royal Torbay Yacht Club 2011 Sailing Season.

Measures.	General Comments.	Specific Comments, Measures & Assets.
-----------	-------------------	---------------------------------------

1. Planning:

1.1	Planning of Starting Sequences.	Starts planned for maximum control of fleet.	
1.2	Advance Briefing of Race Officials.	By written instructions. Race officials have worked as a team for some 10 years.	Race officials are experienced in running of similar inshore races.
1.3	Advance Briefing with Authorities.	Appropriate authorities given written information prior to the Start.	Present PMS Risk Assessment with subsequent updates as required.
1.4	Weather Monitoring.	The Principal Race Officer obtains detailed weather information prior to the first start on each race day.	
1.5	Manning.	RTYC will ensure adequate competent race officials for event management.	Race officials are experienced sailors.
1.6	Emergency/Contingency Procedures.	Establishment of Standard Operating Procedures (SOPs) for emergency situations.	Issue SOPs to key personnel.
1.7	Media Management.	Establish one point of contact to control information for press, TV and radio especially in the case of an emergency.	Royal Torbay Yacht Club is the central point Tel 01803 292006
1.8	Hypothermia	The body losing heat through exposure to sea, wind, spray and rain	Adequate clothing to be worn for the prevailing conditions.
1.9	Sunburn	The skin burning through exposure to the sun and wind.	Adequate clothing, eye protection and sun cream to be worn to protect the skin.

Royal Torbay Yacht Club 2011 Club & Event Racing Risk Assessment

1.10	Slipway Fall	Falling on slippery slipway	Harbour Authority to maintain Slipway clear of slime and weed.
1.11	Lifting Injury	Lifting a Dinghy in and out of a rack.	A racked dinghy may only be lifted in and out of the rack by a minimum of three competent persons, using the ramps.

Measures.	General Comments.	Specific Comments, Measures & Assets.
-----------	-------------------	---------------------------------------

2. Communications.

2.1	Annual Programme	Advises preliminary details of races and conditions of entry plus safety requirements and special regulations for entries.	
2.2	Sailing Instructions/Amendments.	Instructions to owners including governing rules and amendments, compliance with specific local notices to mariners etc. The facility exists to issue amendments as appropriate.	Various international rules and regulations exist and are referred to in race data and entrants are advised that these must be adhered to. Sailing Instructions are given to all entrants prior to their participation in Club Racing. This information is also available on the Club Website prior to the commencement of seasons racing.
2.3	Competitors' Shore Contact.	Competitors are requested to submit shore-side contact details.	Shore-side contacts should have details of the entire crew of the boat.
2.4	Signals.	Signals for postponement and other control of the start as per ISAF International Racing Rules of	All race start and other instructions will be given by VHF radio in

Royal Torbay Yacht Club 2011 Club & Event Racing Risk Assessment

		Sailing.	addition to flag & sound signals displayed from the Committee Boat and/or Starting Platform at the base of Haldon Pier.
2.5	Use of personal buoyancy and safety harnesses.	Requirement for crews to wear these are clearly stipulated in the Notice of Race paragraph 11.	
2.6	VHF Radio Announcements.	Radio contact with competitors and race officials on a designated VHF frequency.	
2.7	VHF Communications during the races.	Listening watch maintained throughout racing on Ch 72 & 37A	
2.8	Mobile Telephones.	Communication between race officials and on occasion with competitors.	Communication is possible over entire race area

MEASURES.	GENERAL COMMENTS.	Specific Comments, Measures & Assets
------------------	--------------------------	---

3. Control Measures Before Starts:

3.1	Safety Inspections.	Race officials may carry out spot checks of the required on-board safety equipment at any time during the Racing Season.	Owners are aware that failure to comply with requirements may lead to disqualification from the series.
3.2	Length of the Starting & Finishing Lines.	Matched to competitor numbers as per RYA recommendations.	To reduce risk of racing boat to racing boat collisions at the starts.
3.3	Depth of water on racecourse	Draft of competitors boats/ current height of tide considered before setting courses for each race	To reduce risk of grounding

4. Addition Control Measures at the Finish.

4.1	Layout of the Finishing Lines.	Deployed to take account of competitor numbers as per RYA recommendations.	
4.2	Retirement Monitoring	Vessels are required to report their retirement to the Chief Race Officer	
4.4	Use of Engine.	Race rules stipulate when an engine may be used to minimize emergencies.
